

# Separation of Concern!

**DO NOT USE INLINE**

**STYLE !!!!!!!!!!!!!**

```
<h1 style="color:blue;margin-left:30px;">This is a heading</h1>
```

Separation of Concern!  
DO NOT USE INLINE  
STYLE !!!!!!!!!!!!!

```
<h1 style="color:blue;margin:0px;">This is a heading</h1>
```

# Multiple style sheets

- If some properties have been defined for the same selector (element) in different style sheets, the value from the last read style sheet will be used.
- Remember! Cascading !
- Let's see example 3
