Replace the rgb() code in your CSS with the hex code

```
body {
color: tomato;
                                        Banana Milkshake
background: #fafad2;
                                        Ingredients:
                                        Ingredients:
                                                   Ingredient
                                                                              Amount
                                         Banana
                                                                      250ml
                                         ce cubes
                                        Method:
                                           1. Peel the banana and add to the blender
                                           2. Add the milk and ice cubes to the blender
                                           3. Turn on the blender for 30 seconds
                                           4. Drink!
```

 Let's add a little more HTML and CSS to improve your webpage.

You can add a horizontal line at the end of your recipe, by

using the <hr> tag.

Notice that this tag doesn't have an end tag, just like the tag.
