Let's do a recipe. For real!

- Step 1: Decide on a recipe

Before you get coding, you'll need to decide on a recipe.

1. Create a folder on your laptop. Call it **recipe**

2. Create 2 new files recipe.html and recipe.css

```html
<html>

  <head>
    <link rel="stylesheet" href="recipe.css">
  </head>

  <body>

  </body>

</html>
```
